Sterling Silver Military Brushes. Beautifully Etched \$7.50.

**SPRAGUE BROS.**

## PRESIDENT ENDS SUSPENSE

**Federal Appointments Announced--  
Campbell and Cotterall the Judges,  
Two Embryes for Attorneys, Abernathy and Porter for Marshals.**

Washington, Nov. 8.—The president has put an end to the long fight over federal positions in the new state of Oklahoma by appointing the following:

Judge of the Eastern District—Ralph E. Campbell.

Judge of the Western District—John H. Cotterall.

For the Eastern District—William Embry, United States Attorney; Grove A. Porter, United States Marshal.

Western District—John Embry, United States Attorney; John Abernathy, United States Marshal.

Although the president does not make the appointments which are made by the respective judges it is understood that J. H. Harris will be clerk of the Eastern district court and Charles E. Hunter of the court of the Western district. It is also understood that C. B. Rogers of Vinita will become Master of Chancery.

The friends of Representative Bird McGuire of the First district claim he won a victory in the appointment of Cotterall. McGuire endorsed Chief Justice Burford and stood out for him

until the president said he would not appoint a man who had reached the age of Burford. McGuire then agreed to accept Mr. Cotterall, but it was some time before Gov. Frantz would agree to endorse Cotterall. The governor endorsed Attorney General Cromwell, but the president would not appoint Gov. Frantz's nominee in the Eastern District.

It is understood that the delay in announcing the selections has been due to the unwillingness of Gov. Frantz to surrender all idea of securing the appointment of Mr. Cromwell. Secretary Garfield is understood to have endorsed Mr. Cotterall very warmly and it is probable that the hearty endorsement of the secretary of the interior caused the president to stick to his determination to appoint Campbell.

"I think the appointments all the way through are excellent," said Judge B. T. Hainer of Perry, a candidate for one of the judgeships, on his way to the railway station this afternoon.

"I know both the new judges well. Judge Cotterall, who is appointed to the bench in my district, is a fine man, an able lawyer and will make a fine judge."

Judge Hainer declared he intended announcing his candidacy for the republican nomination to congress in a short time.

"My platform shall be the improvement of the Missouri and Mississippi and tributaries, and the development of a port on the Gulf Coast through which may be shipped the products of Oklahoma and the Middle Western States to foreign markets instead of having to send them to Atlantic ports as is the case to too great an extent at present."

Judge Hainer says he believes he can capture the nomination, which he regards as being equivalent to an election. Nearly all the Oklahomans who have been here for ten days in connection with the battle for the jobs have disappeared, leaving as quickly as possible after the president announced his selections. Gov. Frantz will go home in a day or two. As stated in this correspondence, Gov. Frantz will embark in the real estate business at Enid when his office is abolished on Nov. 16.

### BLAZE AT MADILL.

Newspaper Plant, Opera House and Laundry Burn.

Madill, I. T., Nov. 7.—Fire about mid-night tonight destroyed the plant of the Madill Twice-a-Week News, the Madill opera house and the Madill steam laundry establishment. In the confusion tonight accurate figures are unobtainable, but the loss will probably be about \$12,000 with some insurance.

### Transfer of Court Cases.

Guthrie, Ok., Nov. 8.—Plato Mountjoy, J. S. Harris and Charles Finch, inspectors for the department of justice at Washington, have arrived here, to superintend transfer of the Territorial court cases to the state courts, and particularly to see that the federal cases are properly changed. A fourth inspector will arrive tomorrow to aid in the work. The court dockets in the twenty-six counties of Oklahoma Territory must be gone over by them by Nov. 16.

## THREATENS PAPER TRUST

**President Promises to Urge Abolition of Tariff on Press Paper and to Probe the Alleged Trust--Price of Paper is Intolerable.**

Washington, Nov. 7.—President Roosevelt today indicated to members of the committee on paper of the American Newspaper Publishers association that he will recommend to congress the abolition of the tariff on press paper; also that he will make a recommendation to the department of justice that it take immediate steps to ascertain whether the anti-trust laws are being disobeyed by the manufacturers of paper.

The appreciation of the association was expressed to the president at the action taken by the federal government last year in ordering the dissolution of the General Paper company. His attention was then called to what was termed a conspiracy by which it was alleged the manufacturers of news print papers have arranged for an advance of \$12 per ton upon the supply of that article for the current year and for an additional advance next year averaging \$10 per ton. This, it was explained means a burden imposed on the printing industry of the country of \$10,000,000 for the present \$19,000,000 for the coming

has the president was told, just been consummated by the creation of a combination to exhaust the surplus stock of paper, to cause a paper famine and to raise prices.

The president was further informed that after disbandment, by order of the court, of the General Paper company, various meetings of eastern and western manufacturers have been held to stimulate prices and to limit the contract period. A conference of eastern manufacturers was held in New York during the first week of September, last, when the advance in price was decided upon. Since that time manufacturers who had previously solicited the business of various newspapers had withdrawn all quotations. Publishers who apply for quotations realize that in some intangible way their supply has been pre-determined and the price they are to pay also arranged for them. In each case, the statement stated, the publisher received bids, but the paper was held at a prohibitory price. He also finds that he has no remedy against the supply of inferior paper. Publishers

### SHERIFF SMITH WARNS THE LIQUOR DEALERS

To all whom it may concern:

If on Nov. 16th, the president declares this a state, it will be a violation of the law to sell or give away any intoxicating liquors of any kind within the state of Oklahoma, and therefore, it will become my duty, as sheriff of Pontotoc county, to enforce the law.

I have consulted with proper officers, and they and myself are of the opinion that all malt liquors, including the so-called Territorial drinks—Long Horn, Short Horn, Uno, Ino, etc.—are in violation of the law. This has also been held by the United States court, and any person or persons violating this law will be promptly arrested and, if they cannot give a good bond, will be lodged in jail. This law was placed there by the people's authority and it is my intention to enforce it for I have no discretionary powers, whatever. It is up to me to enforce the law, and those violating it must do so at their own peril. I propose to do my duty to the best of my ability.

I simply take this means of warning those interested, that they may not say they were not treated right. It is my intention to treat all alike, not imposing on any one, and I don't want people misled by others, as is trying to be done, and has been done.

TOM SMITH,

Sheriff of Pontotoc County.

### Shot Himself in Foot.

Jim Fulton, young son of Will Fulton, who resides six miles northwest, accidentally shot himself in the foot with a target rifle Thursday afternoon. Dr. Castleberry, who was called in, reports his wound in no wise serious.

**R. E. HAYNES, The Hardware Man.**

ADA, OKLAHOMA.

year. The excuse for these advances on the part of the paper makers is that the cost of wood and labor has increased. This excuse was met in the argument to the president by the statement that the published report that the largest manufacturer of news print paper gives the increased cost of material and manufacture, including the expense of administration and sales, as about 64 cents per ton.

The president was told that the present plan of increasing the price of paper had its inception twelve years ago in a proposition to unite the paper mills into one pool or corporation.

The first step in the program was, it was stated, accomplished when the promoters induced congress to fix a tariff duty of \$6 a ton for news print paper. It is this tariff, it is said, that the president has promised to urge congress to repeal. The next step, which has encountered many delays,

who make inquiry of one mill find that the others have been advised of that inquiry. New selling agencies, representing an aggregation of previously independent mills, have merged the output of those mills. The source of supply of numerous newspapers has been arbitrarily diverted from one mill to another without the consent of the publishers. Jobbers who apply to selling agents or to mills for quotations are forced to disclose the name of the customer and the purpose for which the paper is to be used. When this disclosure is made jobbers find that satisfactory quotations can be obtained from but one mill in the country. Mill men and paper salesmen have admitted that an agreed scale had been adopted.

Fresh! Fresh! Every thing in the Cereal line, including Toasted Corn Flakes and Puffed Rice. Phone 21.

## Ada Evening News

OTIS B. WEAVER, Editor and Owner  
HOWARD PARKER, Associate Editor

Entered as second-class mail matter March 28, 1904, at the postoffice at Ada, Indian Territory under the Act of Congress, March 3, 1879.

### THE CASH BASIS POLICY.

The following editorial from the Oklahoma contains some wholesome advice to our new counties, based on the experience of old Oklahoma counties during the crucial times of their beginnings:

About 200 county officers-elect of the new state, including commissioners, county attorneys and clerks, met with Governor Haskell and other state officers at Guthrie early in the week for the purpose of devising means for starting off the machinery of county government in the new counties immediately after the statehood proclamation is issued. The attendance of so large a number indicates a disposition existing among the newly-elected officers to be sure they are right before going ahead.

The meeting developed the fact that practically a unanimity of sentiment exists in favor of starting the new counties on a cash basis, and also buying supplies at home, so far as possible.

The cash basis policy is undoubtedly the proper one for the new counties to adopt. It means a bond issue at the outset, of course, but that would come later anyway. It also means ability to buy at the lowest cash price, which is a consideration of no small importance.

We have had much valuable experience in this connection here in Oklahoma in the past. A few years ago, all of our counties were setting up in business. Some of them adopted the cash basis policy and some, shying at a bond issue, concluded to try credit, issuing county warrants for what they needed in the way of supplies. In the counties which had no funds to redeem warrants, the amount of discount was invariably added to the cost of everything they bought. Frequently this doubled the price. In every instance it meant increased cost; for nobody was willing to sell to the county at a cash basis price and accept payment in warrants which were discounted all the way from five to fifty per cent. The inevitable result was that the counties which bought supplies and paid for them in depreciated warrants plunged head over heels in debt while those which paid cash secured what they needed at a legitimate cost, thereby saving the tax-payers thousands of dollars.

Our experience in this connection ought to prove valuable to the new counties. If they will recognize the fact, once for all, that a bond issue is inevitable in financing a newly-organized county, and vote the same at the outset, they will be in a position to buy necessary supplies at about half the figure paid by those dependent upon issuing warrants which they lack the cash to redeem during the first year of their existence and which they will eventually be compelled to bond themselves in order to redeem anyway.

### TOUCHING THE CARTER CONTEST

Judge Galbraith Cites a Fresh Precedent in Behalf of the Congressman-Elect.

Editor of the Daily News.

In your paper of last evening you published a news item under an Ardmore date line relative to the proposed election contest of Mr. Disney of Atoka against Hon. C. D. Carter, congressman-elect from this, the 4th congressional district. While the precedents cited by Mr. Carter's counsel in this item tend to show the want of merit in the proposed contest, the latest adjudication of the question in Mr. Carter's favor, was not given, namely, a decision of the committee on elections of the 57th congress, filed in January, 1901.

The identical question was presented to that committee and the decision was squarely against the claim of Mr. Disney. The question was raised by a protest filed with the committee on elections of the 57th congress, against seating the Hon. Robert W. Wilcox, delegate from the Territory of Hawaii, on the ground that Wilcox had not been a citizen of the United States seven years at the time of his election; Wilcox was a native of the Hawaiian Islands and was made a citizen of the United States by act of congress, passed June 14th, 1900; he was elected to congress November 8th, 1900. In politics Wilcox was neither a republican or democrat but belonged to a party known in Hawaii as Home Rulers. The committee on elections of the 57th congress was republican in politics as the committee on elections of the 60th congress, to which will be referred Mr. Disney's contest, should be file one, will also be composed of a majority of republicans. The election committee of the 57th congress, after full argument and proper deliberation, decided that the objection that Mr. Wilcox had not been a citizen of the United States for seven years at the time of his election was not sufficient ground on which to deny him a seat in the house of representatives to which the people of Hawaii had elected him. This decision constitutes a republican precedent that will undoubtedly be followed when the same question is again presented to an election committee composed of a majority of republicans.

In the light of this decision there seems to be little cause for apprehension about Hon. C. D. Carter being seated in the 60th congress as the representative of the 4th congressional district of the state of Oklahoma to which he was elected by the eloquent majority of almost fourteen thousand votes over Mr. Disney of Atoka who pretended to believe that he was running as an opposition candidate for the same office.

Yours very sincerely,

C. A. GALBRAITH,  
Ada, Nov. 8, 1907.

Trial Catarrh treatments are being mailed out free, on request, by Dr. Shoop, Racine, Wis. These tests are proving to the people—without a penny's cost—the great value of this scientific prescription known to druggists everywhere as Dr. Shoop's Catarrh Remedy. Sold by G. M. Ramsey.

### STATE POLITICS AND POLITICIANS

S. M. Barrett, superintendent of the Norman public schools notified the board of education at its regular meeting Tuesday that they must seek the services of another superintendent. His resignation was accepted. Although Superintendent Barrett and the members of the school board refuse to make public the reasons assigned for the severance of his connection with the schools, it is generally known and not denied, that E. D. Cameron, state superintendent of public instruction-elect of Sulphur, I. T., has tendered Prof. Barrett the first assistantship of his office, which has been accepted.

During the campaign for the nomination for state officers last spring, Professor Barrett was a candidate against Superintendent Cameron, until about 30 days before the primary, when he withdrew from the race, securing the certainty of Cameron's election.

His successor has not been decided upon.

Guthrie Leader: Governor-elect C. N. Haskell is in favor of a rigid dispensary law. He advocates the management of the county dispensary similar to that of a postoffice, paying a small salary and making it an exclusive store and not a trade bringer.

Very few people in Oklahoma today know that Governor Frantz has been admitted to the bar and can practice law within the new state. The fact developed today when some politicians suggested that if Governor Frantz had only studied law he might develop into a candidate for a federal judgeship in the new state as rough riders seem to be getting everything under President Roosevelt's administration.

When the governor made his opening campaign speech at Ada Judge Dickinson gave him a commission admitting him to practice law. The commission was signed by O. A. Wells, court clerk, and the picture of a cat was drawn upon the commission by way of a joke. As Governor Frantz has never practiced law under this commission no one believes seriously that his admission to the legal fraternity will have any bearing on the judgeship fight.

A Washington special says:

Pliny L. Soper and Cash Cade, national committeemen from the Indian and Oklahoma Territories, and Charles E. Hunter, of the new state committee, will dictate the patronage for the state of Oklahoma hereafter.

This arrangement after the distribution of the federal patronage in the new state of Oklahoma while having been agreed upon by all parties, will only hold good after the president has named the men who will act as federal judges, United States marshals and United States district attorneys.

Tulsa World: If the World has the situation sized up right Frank Greer has just ten days more in which to either flop or fly. It is only fair to say that money so far offered is about evenly divided on which it will be.

### Catarrh Cannot Be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best medicines known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing catarrh. Send for testimonials free. F. J. CHENEY & CO., Props., Toledo, O. Sold by Druggists, price 75c. Take Hall's Family Pills for constipation.

### Advance Work for New State.

Guthrie, Ok., Nov. 8.—Because of an interstate commerce commission hearing at Enid on Nov. 20, four days after Oklahoma becomes a state, a request has been made of Attorney General Cromwell by the incoming attorney general of the state, Charles J. West, for a copy of all records in the territory's case pending before the commission and which may likely come up for hearing on that date.

To check a cold quickly, get from your druggist some little Candy Tablets called Preventics. Druggists everywhere are now dispensing Preventics, for they are not only safe, but decidedly certain and prompt. Preventics contain no quinine, no laxative, nothing harsh nor sickening. Taken at the "sneeze stage" Preventics will prevent Pneumonia, Bronchitis, La Grippe, etc. Hence the name, Preventics. Good for feverish children. 48 Preventics 25 cents. Trial Boxes 5 cts. Sold by G. M. Ramsey.

### ANOTHER PETITION.

There is a lot of gasoline stored in the Nettles, old building corner of 12th and Townsend streets, enough it is said to imperil the life of scores of people and a great many thousands of dollars worth of property. This grave public menace, almost in the heart of the business center of the city, has caused considerable uneasiness among the surrounding population. Several unsuccessful efforts have been made to persuade the owner to remove these dangerous explosives, but without avail. Finally the city council passed an ordinance, the enforcement of which would compel the removal of this bulk of gasoline. Unless the officers enforce the demands of this emergency ordinance or furnish the public with satisfactory reason for their continued delay, they will justly receive the severest censure from the people.

### Magnolia.

#### Government Cotton Report.

The government ginner's report issued today shows 6,167,000 bales ginned up to Nov. 1, as compared with 6,906,000 bales at the same time last year.

## Stop That Cold

To check early colds or Grippe with "Preventics" means sure defeat for Pneumonia. To stop a cold with Preventics is safer than to let it run and be obliged to cure it afterwards. To be sure, Preventics will cure even a deeply seated cold, but taken early—at the sneeze stage—they break, or head off these early colds. That's surely better. That's why they are called Preventics. Preventics are little Candy Cold Cures. No Quinine, no physic, nothing sickening. Nice for the children—and thoroughly safe too. If you feel chilly, if you sneeze, if you ache all over, think of Preventics. Promptness may also save half your usual sickness. And don't forget your child, if there is feverishness, night or day. Herein probably lies Preventics' greatest efficiency. Sold in boxes for the pocket, also in 25c boxes of 50 Preventics. Insist on your druggist giving you

Preventics  
G. M. RAMSEY.

an average yield per acre of 26 bushels as compared with 30.3 last year. Estimated crop for 1907 is 2,927,418,000 bushels.

### Tenderness of the "Hanging Judge."

Mr. Justice Hawkins' tenderness for women prisoners was well known. He admitted it, and he had a great dislike to sentencing these poor creatures to death who had been recommended to mercy and would probably be reprieved. On one such occasion the sheriff asked if he was not going to put on the black cap.

"No," he answered. "I am not. I do not intend the poor creature to be hanged, and I am not going to frighten her to death."

Addressing her by name, he said: "Don't pay any attention to what I am going to read. No harm will be done to you. I am sure you did not know in your great trouble and sorrow what you were doing, and I will take care to represent your case so that nothing will harm you in the way of punishment."

He then mumbled over the words of the sentence of death and the poor creature did not hear them.

When the Stomach, Heart or Kidney nerves get weak, then these organs always fail. Don't drug the stomach nor stimulate the Heart or Kidneys. That is simply a makeshift. Get a prescription known to Druggists everywhere as Dr. Shoop's Restorative. The Restorative is prepared expressly for these weak inside nerves. Strengthen these nerves, build them up with Dr. Shoop's Restorative—tablets or liquid—and see how quickly help will come. Free sample test sent on request by Dr. Dr. Shoop, Racine, Wis. Your health is surely worth this simple test. Sold by G. M. Ramsey.

Just the Thing. Fresh buck wheat and Pancake Flour at Tobin's.

Burke Again Tonight. Rev. Burke, the evangelist will preach the final sermon of the revival tonight. The service last evening was the most interesting of all, and it is thought that the final one will be still greater. It is hoped that the church building will be filled to overflowing tonight, and in that way express appreciations of Brother Burke's coming.

All work done by me is guaranteed to be the best. B. C. BERRY.

Marriage Licenses. Jesse Creason, 22 and Lillie M. Whisenant, 14 Coalgate. James E. Allen, 22, and Ada Ledford, 16, Stratford.

SURPRISE STORE  
The people who put Prices Down.

Petition Against Gasoline Again. To the Honorable City Council of the City of Ada.

The undersigned, your petitioners, respectfully represent that several months ago there was stored in an old building on the corner of 12th street and Townsend avenue, a large quantity of coal oil and gasoline; that notwithstanding the city council passed an ordinance requiring the same to be removed, yet it still remains there and endangers the lives and property of the citizens of Ada.

Wherefore, your petitioners pray that you take such steps as are necessary to have said ordinance enforced before it is too late. Respectfully,

S. K. Smith, J. W. Peay, M. V. Barbrause, H. Fouty, Willie Evans, R. E. Haynes, R. Staggs, F. C. Sims, W. H. Nettles, A. L. Nettles, F. O. Harris, J. Wilson, Kaiser Bros., T. B. Kile, J. W. Dean, G. B. Spears, W. C. Edwards, attorney; J. W. Bolen, Otis B. Weaver, Tom McKeown, J. P. Wood, A. P. Rhea, G. P. Carney, L. N. James, Geo. Irwin, Braley & Ebey, C. A. Galbraith.

Change the color of the old garments to look like new. Berry will do it for you.

### To the Churches and Public.

The members of the Presbyterian church extend their thanks to all the churches and the public for their cooperation in the revival and especially so to the Baptist and Methodists for the use of their houses of worship. The meeting has been a blessing and a spiritual up-lift to all the churches. This meeting is an example of preaching Christ instead of denominationalism. The world needs Christ the Savior more than anything else. Our hearts go with Brother Burke and the singer to their next meeting.

Services at the Presbyterian church Sunday, both morning and evening. Subject Sunday morning, "Be a Good Soldier of Jesus Christ."

Special song service with organ and violin accompaniment. All are cordially invited.

J. R. BROWNE, Pastor.

### Chief.

Morning Joy.

## SHOT HORSE AND RIDER

About 5 o'clock Thursday afternoon City Marshal Couch had an exciting chase after an Indian named Joe Porter and his convivial companion, one Sanders, with the result that Porter's horse was shot from under him and he himself received a wound in the leg.

From the city marshal's statement of the trouble, the two men had been drinking in town and showed a disposition to raise a "rough."

Couch cautioned them to go home and to ride out of town quietly. But as soon as they turned into South Broadway they began riding fast, in sort of a horse race fashion, whereupon the marshal gave chase bent on arresting them. He found them near the Baptist church, where Sanders had dismounted and was making an indecent exposure. The officer got hold of both horses' bridle reins, but the men did not tamely submit. Porter got his horse loose and as he started off, Mr. Couch says he reached in his bosom as for a gun to do the officer violence. Couch jerked his gun then and just as he pulled the trigger he saw Porter had reached merely for a bottle, whereupon Couch lowered his aim, the ball striking the Indian in the thigh and lodging in the saddle leather. Determined to arrest the fugitive, Couch shot a second time for the purpose of stopping the horse. This bullet struck the horse in the spine bringing him to the ground.

Carlton Weaver appeared on the scene and assisted in the apprehension of the men, both of whom were finally rounded up and taken to the calaboose for the night.

Surgical attention was at once secured for the Indian, and his wound proved not to be serious. He is up and about town today. Charges of drunkenness, fast riding, etc., are now pending against both the fugitives.

In falling the horse broke its leg and had to be killed at once.

Just the Thing. Fresh buck wheat and Pancake Flour at Tobin's.

White Wonder Flour never fails to please. 137-1f

If your grocer does not handle White Wonder Flour have him get it for you. Don't take any substitute. 137-1f

## THE ADA NATIONAL BANK

A Significant Nickname.

The unfeeling frankness of youth does not stop at unpleasant truth-telling. Even the gentle sex may suffer at the hands of its brothers. It is dangerous for a girl—at least for a girl at a coeducational school—to echo Burn's wish.

"O wad some Pow'r the gifle gie us To see oursel's as others see us!"

lest her desire be realized with unexpected fulness. For—could mind of women ever think it?—the boys of these schools have nicknamed their sister students "fussers!" Was the name born of the numerous sofa pillows and footstools with which the maidens fill their rooms, the chafing-dishes and teatables and hatpin-cases and ring-boxes and alpenstocks and rocking chairs which make dangerous a hasty progress through the feminine study? At all events, the combination of these feminine acquisitions has embodied itself in the crisp, masculine epithet, "fusser." Perhaps the phrase is a comment on a state of mind as well as on a method of house-keeping. In the opinion of the college boy, Maid Marian "fusses" about lessons, about "marks," about committees, about what faculty or classmates think of her. She lacks his cheerful fatalism, and he tags her with the epithet which, he thinks, fits her conscience and her mind, as well as her room and her wardrobe. The modern girl, says Youth's Companion, must find a way to free herself of impedimenta, both physical and intellectual, if she would induce her critics to drop the objectionable nickname and grant her rank as an artist in the pleasant business of living.

All the iron furnaces in the world produced less iron in 1894 than will be turned out of the furnaces in the United States during the current year, if the rate of production for the first six months is maintained. This fact indicates a marvelous expansion in the iron business. No more convincing proof of the solid foundation of the national prosperity could be afforded than this, for it is well known that a nation's consumption of iron is an index to its business condition. This is not because there is any mysterious virtue in iron, but because iron is used extensively only in prosperous times. Nearly 13,500,000 tons of pigiron were turned out from January till June. This is more than the total yearly output for any 12 months prior to 1899, and more than either Germany or England have ever made in any full year. There are no indications of a falling off in the American production. On June 30 29 new furnaces were under construction, and 13 more were projected. The United States produces more iron and more cotton than any other country. It exports the greater part of the cotton, but uses nearly all of the iron in its own industries.

The scarabæus, the sacred beetle of Egypt, was an object of worship in olden days, and was most carefully embalmed at death. The ancient Egyptians believed the heart to be the center of intellect as well as the source of life, and removed this organ when the embalming process took place, a model of the scarabæus being put in its place. There are many varieties of this sacred beetle, as the monuments in Egypt show. The scarab was the favorite insignia of both men and women, and was worn as a charm to protect from harm and insure desirable qualities to make them attractive. Many hard stones were used for these models, and turquoise matrix, lapis-lazuli, jasper, amethyst, agate and onyx being much in favor. Some of the ancient ones are cleverly cut and were used as coin of the realm. The finest are found with the mummies in old tombs.

What a pity it would have been had the Bastille been taken in the winter, rather than in the summer. No doubt those who participated in that famous victory found it full hot enough at the time, but those who now recall their doughty achievements with feast and dance would have found far less incentive from a French winter than from a French summer. In this way does a kindly fate look heedfully to the future. The perspiring and powder-grimed fighters of the Place de la Bastille a hundred years ago little thought how much their descendants would appreciate the July weather which is an established part of the great national fête.

In mottoes and similar inscriptions, appropriateness is as important as sentiment. During Boston's recent "Old Home Week" a conspicuous part of the decorations in one of the suburbs was "Welcome," displayed in large letters, over the door of the police station.

Knabenshue's airship bumped into a schoolhouse in Toronto with unpleasant results for the operator. The airship may have been aware that its early education had been neglected.

PROLIFIC GARDEN

ENGLISHMAN'S FIRST AND SUCCESSFUL ATTEMPTS IN MANITOBA—SOIL PRODUCES STRIKING RESULTS.

The Winnipeg (Canada) Free Press of a few days since contains account of the success that followed the efforts of William Knowles, an Englishman who located near Winnipeg, Manitoba. This is but one of many letters giving experiences of settlers, and should be encouraging to those who are looking about for a new home in which they may better their conditions. The following is a copy of the article referred to:

William Knowles, who cultivates some twelve acres of land just below Middlechurch ferry on east side of the Red River has probably as fine a display of horticultural products as any in Manitoba. The whole of his holding is in a high state of cultivation and literally crowded with splendid vegetable specimens, which have fortunately escaped damage by hail, although heavy storms have more than once occurred within a few miles. The potatoes are a wonderful crop, and he expects to raise 1,500 bushels from his patch of 4½ acres. A half dozen of tubers selected yesterday average more than a pound each. Adjoining the potatoes may be seen a marvelous collection of tomatoes. There are 600 plants, all growing under an enormous weight of fruit. One single stock picked yesterday contained eighteen tomatoes and weighed four pounds. This extraordinary example of marvelous growth, together with some of the potatoes were sent to the Free Press office.

The proprietor was the first in town with several specimens, including green corn. The season has been favorable for onions, and one square patch of nearly an acre is looking remarkably healthy. In addition there are good crops of cabbages, cauliflower, turnips, parsnips, carrots, pumpkins, marrows, cucumbers, celery, peas, lettuce, rhubarb, etc. The floral department has not been neglected and a charming display of all the well known blooms were shown, including a specially choice lot of asters.

Mr. Knowles, who gained most of his gardening experience in England, is loud in his praise of Manitoba soil for vegetable raising, and is gratified with the result of his first attempt at extensive horticulture.

HAD A FELLOW FEELING.

Aunt Susan's Heart Went Out to "Pore Missus Astor."

Uncle Eli felt he knew the metropolis pretty well. Had he not been there three times in four years—and twice he had ridden on the elevated. So when he brought Aunt Susan with him (on the fourth trip) he naturally assumed the role of guide.

She marveled at everything until they sat down for luncheon. They had gone into the Astor house for that meal, but all its other marvels seemed lost on the visiting country hostess, as she looked open-eyed at the crowds that filled not only the corridors but the restaurants. Scarcely had they found seats, when this amazement took definite shape.

"Eli," said she in a stagey whisper, "I can't set here an' eat peaceably. I jes' must go downstairs an' help pore Missus Astor with the cookin' an' dishes."—Bohemian.

Pure Food.

The pure food law does not prohibit the sale of Cream of Tartar Baking Powders because Cream of Tartar is as pure as Alum—but it is a well known fact that a baking powder in which Alum is used instead of Cream of Tartar is less injurious. Dr. Herman Reinhold, the expert German chemist, in a recent official report concerning Baking Powders, declares that a pure Alum baking powder is better and less injurious than the so-called Cream of Tartar powders. He says that if the quantity of alum contained in a sufficient quantity of baking powder for a batch of bread or cakes for an ordinary family, be concentrated to one mouthful of food, and taken into the stomach of any one person, no matter how delicate, it could do no harm.

Effective Rat Poison.

A new plague protective or rat poison has been discovered in India. It consists of a pasty substance inoculated with a bacillus. According to report a rat which takes enough to cover a pin's head will not only die, but will infect every other rat with which it comes in contact. Five villages have been selected by the government in which to make tests of the new poison.

Many Good Ones—One Best.

"So many Oils and Liniments are advertised it is hard to decide which to buy. I tried a number before using Hunt's Lightning Oil. After using it once, however, I realized I had found the best there was, and it was useless to look further. If it fails its 'all off.' No other liniment will hit the spot if Hunt's Lightning Oil fails."

C. G. YOUNG, Okeene, O. T.

A Point of View.

The new steamer City of \_\_\_\_\_, was laid up for repairs and one of the rickety old-timers of the line was sailing in her place. A passenger who was somewhat irritated by the fact remarked to another, an Irishman, by the way: "The City of \_\_\_\_\_ always gets in at two in the morning and this old tub never gets in before six."

The Irishman thought for a moment and replied: "It's all right. The distance is just the same and we get a longer sail for the money."

TIRED BACKS.

The kidneys have a great work to do in keeping the blood pure. When they get out of order it causes backache, headaches, dizziness, languor and distressing urinary troubles. Keep the kidneys well and all these sufferings will be saved you. Mrs. S. A. Moore, proprietor of a restaurant at Waterville, Mo., says:

"Before using Doan's Kidney Pills I suffered everything from kidney troubles for a year and a half. I had pain in the back and head, and almost continuous in the loins and felt weary all the time. A few doses of Doan's Kidney Pills brought great relief, and I kept on taking them until in a short time I was cured. I think Doan's Kidney Pills are wonderful."

For sale at all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

As to the Scorchers.

"Do many 'endurance race' autos pass here?" asked the city boarder, peering down the road. "Yes, stranger," replied the old farmer. "They are all endurance racers to us." "To you?" "Sure. It is an endurance test of patience to keep from blazing away at them every time they run over a cow or scare a horse."

Highest Attainment.

He who plants a tree does well; he who fells and saws it into planks does well; he who makes a bench of the planks does well; he who, sitting on the bench, teaches a child, does better than the rest.—Farrar.

NOTHING HID FROM KAISER.

How German Emperor Keeps in Touch with World's Affairs.

The German emperor's interest in everything that goes on in the world is well known, but few are aware of the trouble he takes to keep in touch with current affairs. According to a Munich newspaper, the kaiser reads at least three papers every day, changing the list several times a week in order to become fully acquainted with the ideas of all political parties in the state. But this by no means exhausts his appetite for information. Every day the ministry of foreign affairs, as well as that of the interior, has to provide newspaper cuttings, properly named and dated, and pasted on slips ready for the emperor's perusal. These he carefully reads, making marginal notes as he goes along, and they are then scrupulously classified and put aside ready for immediate reference. Often, too, the emperor asks for cuttings relating to the particular technical subjects in which for the time he is specially interested.

They Always Make Friends.

"Since using one box of Cheatham's Laxative Tablets we have been friends. They cured me promptly and thoroughly of a bad case of chills. Any one needing a remedy for malarial trouble will certainly find them satisfactory. They are also convenient to carry and pleasant to take."

JOHN EVERHARDT, Harwood, Tex.

Not Saying Much for Ma.

"Pa, is ma your best half?" "I suppose so." "Still, that ain't sayin' much for ma, is it?"

To do the common duty of each day uncommonly well—that is success.

**Women Avoid Operations**  
When a woman suffering from female trouble is told that an operation is necessary, it, of course, frightens her.  
The very thought of the hospital, the operating table and the knife strikes terror to her heart.  
It is quite true that these troubles may reach a stage where an operation is the only resource, but a great many women have been cured by Lydia E. Pinkham's Vegetable Compound after an operation has been decided upon as the only cure. The strongest and most grateful statements possible to make come from women who by taking  
**Lydia E. Pinkham's Vegetable Compound**  
made from native roots and herbs, have escaped serious operations, as evidenced by Miss Rose Moore's case, of 307 W. 26th St., N. Y. She writes:—  
Dear Mrs. Pinkham:—Lydia E. Pinkham's Vegetable Compound has cured me of the very worst form of female trouble and I wish to express to you my deepest gratitude. I suffered intensely for two years so that I was unable to attend to my duties and was a burden to my family. I doctored and doctored with only temporary relief and constantly objecting to an operation which I was advised to undergo. I decided to try Lydia E. Pinkham's Vegetable Compound; it cured me of the terrible trouble and I am now in better health than I have been for many years."  
This and other such cases should encourage every woman to try Lydia E. Pinkham's Vegetable Compound before she submits to an operation.  
**Mrs. Pinkham's Standing Invitation to Women**  
Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. From the symptoms given, the trouble may be located and the quickest and surest way of recovery advised.

RHEUMATISM CAN NOT BE RUBBED AWAY

It is perfectly natural to rub the spot that hurts, and when the muscles, nerves, joints and bones are throbbing and twitching with the pains of Rheumatism the sufferer is apt to turn to the liniment bottle, or some other external application, in an effort to get relief from the disease, by producing counter-irritation on the flesh. Such treatment will quiet the pain temporarily, but can have no direct curative effect on the real disease because it does not reach the blood, where the cause is located. Rheumatism is more than skin deep—it is rooted and grounded in the blood and can only be reached by constitutional treatment—IT CANNOT BE RUBBED AWAY. Rheumatism is due to an excess of uric acid in the blood, brought about by the accumulation in the system of refuse matter which the natural avenues of bodily waste, the Bowels and Kidneys, have failed to carry off. This refuse matter, coming in contact with the different acids of the body, forms uric acid which is absorbed into the blood and distributed to all parts of the body, and Rheumatism gets possession of the system. The aches and pains are only symptoms, and though they may be scattered or relieved for a time by surface treatment, they will reappear at the first exposure to cold or dampness, or after an attack of indigestion or other irregularity. Rheumatism can never be permanently cured while the circulation remains saturated with irritating, pain-producing uric acid poison. The disease will shift from muscle to muscle or joint to joint, settling on the nerves, causing inflammation and swelling and such terrible pains that the nervous system is often shattered, the health undermined, and perhaps the patient becomes deformed and crippled for life. S. S. S. thoroughly cleanses the blood and renovates the circulation by neutralizing the acids and expelling all foreign matter from the system. It warms and invigorates the blood so that instead of a weak, sour stream, constantly depositing acid and corrosive matter in the muscles, nerves, joints and bones, the body is fed and nourished by rich, health-sustaining blood which completely and permanently cures Rheumatism. S. S. S. is composed of both purifying and tonic properties—just what is needed in every case of Rheumatism. It contains no potash, alkali or other mineral ingredient, but is made entirely of purifying, healing extracts and juices of roots, herbs and barks. If you are suffering from Rheumatism do not waste valuable time trying to rub a blood disease away, but begin the use of S. S. S. and write us about your case and our physicians will give you any information or advice desired free of charge and will send our special treatise on Rheumatism.

## PRESIDENT ENDS SUSPENSE

**Federal Appointments Announced—Campbell and Cottrell the Judges, Two Embryes for Attorneys, Abernathy and Porter for Marshals.**

Washington Nov. 8.—The president has put an end to the long fight over federal positions in the new state of Oklahoma by appointing the following:

Judge of the Eastern District—Ralph B. Campbell.  
Judge of the Western District—John H. Cottrell.

For the Eastern District—William Embry, United States Attorney, Grove A. Porter, United States Marshal.  
Western District—John Embry, United States Attorney, John Abernathy, United States Marshal.

Although the president does not make the appointments which are made by the respective judges it is understood that I. H. Harris will be clerk of the Eastern district court and Charles E. Hunter of the court of the Western district. It is also understood that C. B. Rogers of Tulsa will become Master of Chancery.

The friends of Representative Bird McGuire of the First district claim he won a victory in the appointment of Cottrell. McGuire endorsed Chief Justice Burford and stood out for him.

## Olive Oil A Perfect Food

A pure olive oil contains several times the amount of nutriment that meat does and it is the sort of nutriment that the system particularly needs. The growing use of olive oil is founded on its real worth.

You can't use it too freely in the home but you must be sure that it is of the right quality. We have made sure for you. Come to us when olive oil is wanted and ask for Pure French or Pure Italian oil. Absolutely pure and of finest quality in every way. Price 75c pint.

THE ADA NURSERIES

Newspaper Plant, Opera House and Laundry Burn.

Madill, Nov. 7.—Fire about mid night tonight destroyed the plant of the Madill Times & Week News, the Madill opera house and the Madill steam laundry establishment. In the confusion tonight accurate figures are unobtainable but the loss will probably be about \$12,000 with some insurance.

Transfer of Court Cases.

Madill, Ok. Nov. 8.—Plato Mount, J. S. Harris and Charles Finch inspectors for the department of justice at Washington have arrived here to superintend transfer of the Territorial court cases to the state courts and particularly to see that the federal cases are properly changed. A fourth inspector will arrive tomorrow to aid in the work. The court dockets in the twenty-six counties of Oklahoma Territory must be gone over by them by Nov. 16.

## THREATENS PAPER TRUST

**President Promises to Urge Abolition of Tariff on Press Paper and to Probe the Alleged Trust--Price of Paper is Intolerable.**

Washington, Nov. 7.—President Roosevelt today indicated to members of the committee on paper of the American Newspaper Publishers Association that he will recommend to congress the abolition of the tariff on press paper, also that he will make a recommendation to the department of justice that it take immediate steps to ascertain whether the anti-trust laws are being disobeyed by the manufacturers of paper.

The appreciation of the association was expressed to the president at the action taken by the federal government last year in ordering the dissolution of the General Paper company. His attention was then called to what was termed a conspiracy by which it was alleged the manufacturers of news print papers have arranged for in advance of \$12 per ton upon the supply of that article for the current year and for an additional advance next year averaging \$10 per ton. This it was explained means a burden imposed on the printing industry of the country of \$10,000,000 for the present \$1,000,000 for the coming

year. The president was told just been consummated by the creation of a combination to exhaust the surplus stock of paper, to cause a paper famine and to raise prices.

The president was further informed that after disbandment, by order of the court, of the General Paper company, various meetings of eastern and western manufacturers have been held to stimulate prices and to limit the contract period. A conference of eastern manufacturers was held in New York during the first week of September last when the advance in price was decided upon. Since that time manufacturers who had previously solicited the business of various newspapers had withdrawn all quotations. Publishers who apply for quotations realize that in some intangible way their supply has been pre-determined and the price they are to pay also arranged for them. In each case the statement stated the publisher received bids but the paper was held at a prohibitory price. He also finds that he has no remedy against the supply of inferior paper. Publishers

## SHERIFF SMITH WARNS THE LIQUOR DEALERS

To all whom it may concern.

If on Nov. 16th the president declares this a state it will be a violation of the law to sell or give away any intoxicating liquors of any kind within the state of Oklahoma and therefore it will become my duty as Sheriff of Pontotoc county to enforce the law.

I have consulted with proper officers and they and my if are of the opinion that all malt liquors, including the so-called territorial drinks—Long Horn, Short Horn, One Two etc.—are in violation of the law. This has also been held by the United States court and my personal opinion is no longer this law will be promptly enforced and if they can't give a good bond will be lodged in jail. This law was placed there by the people's money and it is my duty to enforce it. If you have any liquor in your place where you are up to me or in one of my own places, I think it must do so if their own term. I propose to go to my law to the best of my ability.

I simply take this means of warning them and I hope they may not say they were not treated right. It is my intention to treat all alike, not imposing on any one and I don't want people misled by others as is trying to be done and has been done.

TOM SMITH  
Sheriff of Pontotoc County

Shot Himself in Foot.

Tim Fulton, young son of Will Fulton, who resides six miles northwest accidentally shot himself in the foot with a target rifle Thursday afternoon in Castleberry who was called on reports his wound in a wrist.

To the Churches and Public.

The members of the Presbyterian church extend their thanks to all the churches and the public for their cooperation in the revival and especially so to the Baptist and Methodists for the use of their houses of worship. The meeting has been a blessing and a spiritual up-lift to all the churches. This meeting is an example of preaching Christ instead of denominationalism. The world needs Christ the Savior more than anything else. Our hearts go with Brother Burke and the singer to their next meeting.

Services at the Presbyterian church Sunday both morning and evening. Subject Sunday morning "Be a Good Soldier of Jesus Christ". Special song service with organ and violin accompaniment. All are cordially invited.

J. R. BROWNE, Pastor

## Chief.

Just received a new shipment of pictures, frames and mouldings at L. T. Walters' Undertaking Parlor.

## Morning Joy.

## SHOT HORSE AND RIDER

About 5 o'clock Thursday afternoon City Marshal Couch had an exciting chase after an Indian named Joe Porter and his convivial companion one Sanders with the result that Porter's horse was shot from under him and he himself received a wound in the leg.

From the city marshal's statement of the trouble the two men had been drinking in town and showed a disposition to take a rough.

Couch cautioned them to go home and to ride out of town quietly. But as soon as they turned into South Broadway they began riding fast, in sort of a horse race fashion, whereupon the marshal gave chase bent on arresting them. He found them near the Baptist church where Sanders had dismounted and was making an indecent exposure. The officer got hold of both horses' bridle reins, but the men did not tamely submit. Porter got his horse loose and as he started off, Mr. Couch says he reached in his bosom as for a gun to do the officer violence. Couch jerked his gun then and just as he pulled the trigger he saw Porter had reached merely for a bottle whereupon Couch lowered his aim; the ball striking the Indian in the thigh and lodging in the saddle leather. Determined to arrest the fugitive Couch shot a second time for the purpose of stopping the horse. This bullet struck the horse in the spine bringing him to the ground.

Carlton Weaver appeared on the scene and assisted in the apprehension of the men both of whom were finally rounded up and taken to the collieries for the night.

Surgical attention was given Porter for the Indian and his wound proved not to be serious. He is up and about today. Charges of drunk and disorderly conduct are now pending against both the fugitives. In talking the horse broke its leg and had to be killed it once.

Just the thing fresh buck wheat and Pancake Flour at Tobins.

White Wonder Flour never fails to please.

If your grocer does not handle White Wonder Flour have him get it for you. Don't take any substitute.

**A Significant Nickname.**  
The unfeeling frankness of youth does not stop at unpleasant truth-telling. Even the gentle sex may suffer at the hands of its brothers. It is dangerous for a girl—at least for a girl at a coeducational school—to echo Burns's wish.

"O wad some Pow'r the giftie gie us To see oursel's as others see us!" lost her desire but realized with unexpected fulness. For—could mind of women ever think it?—the boys of these schools have nicknamed their sister students "fussers!" Was the name born of the numerous sofa pillows and footstools with which the maidens fill their rooms, the chattering and teatime and baton-cases and ring-boxes and alpenstocks and rocking chairs which make dangerous a hasty progress through the feminine study? At all events, the combination of these feminine acquisitions has embodied itself in the crisp, masculine epithet, "fusser." Perhaps the phrase is a comment on a state of mind as well as on a method of house-keeping. In the opinion of the college boy, Maid Marian "fusses" about lessons, about "marks," about committees, about what faculty or classmate think of her. She lacks his cheerful fatalism, and he tags her with the epithet which, he thinks, fits her conscience and her mind, as well as her room and her wardrobe. The modern girl, says Youth's Companion, must find a way to free herself of impedimenta, both physical and intellectual, if she would induce her critics to drop the objectionable nickname and grant her rank as an artist in the pleasant business of living.

All the iron furnaces in the world produced less iron in 1894 than will be turned out of the furnaces in the United States during the current year, if the rate of production for the first six months is maintained. This fact indicates a marvelous expansion in the iron business. No more convincing proof of the solid foundation of the national prosperity could be afforded than this, for it is well known that a nation's consumption of iron is an index to its business condition. This is not because there is any mysterious virtue in iron, but because iron is used extensively only in prosperous times. Nearly 13,500,000 tons of pigiron were turned out from January till June. This is more than the total yearly output for any 12 months prior to 1893, and more than either Germany or England have ever made in any full year. There are no indications of a falling off in the American production. On June 30 29 new furnaces were under construction, and 13 more were projected. The United States produces more iron and more cotton than any other country. It exports the greater part of the cotton, but uses nearly all of the iron in its own industries.

The scarabaeus, the sacred beetle of Egypt, was an object of worship in olden days, and was most carefully embalmed at death. The ancient Egyptians believed the heart to be the center of intellect as well as the source of life, and removed this organ when the embalming process took place, a model of the scarabaeus being put in its place. There are many varieties of this sacred beetle, as the monuments in Egypt show. The scarab was the favorite insignia of both men and women, and was worn as a charm to protect from harm and insure desirable qualities to make them attractive. Many hard stones were used for these models, and turquoise, malachite, lapis-lazuli, jasper, amethyst, agate and onyx being much in favor. Some of the ancient ones are cleverly cut and were used as coin of the realm. The finest are found with the mummies in old tombs.

What a pity it would have been had the Bastille been taken in the winter, rather than in the summer. No doubt those who participated in that famous victory found it full hot enough at the time, but those who now recall their doughty achievements with feast and dance would have found far less incentive from a French winter than from a French summer. In this way does a kindly fate look heedfully to the future. The perspiring and powder-grimed fighters of the Place de la Bastille a hundred years ago little thought how much their descendants would appreciate the July weather which is an established part of the great national fête.

In mottoes and similar inscriptions, appropriateness is as important as sentiment. During Boston's recent "Old Home Week" a conspicuous part of the decorations in one of the suburbs was "Welcome" displayed in large letters, over the door of the police station.

Knabenahue's airship bumped into a schoolhouse in Toronto with unpleasant results for the operator. The airship may have been aware that its early education had been neglected.

PROLIFIC GARDEN

ENGLISHMAN'S FIRST AND SUCCESSFUL ATTEMPTS IN MANITOBA—SOIL PRODUCES STRIKING RESULTS.

The Winnipeg (Canada) Free Press of a few days since contains account of the success that followed the efforts of William Knowles, an Englishman who located near Winnipeg, Manitoba. This is but one of many letters giving experiences of settlers, and should be encouraging to those who are looking about for a new home in which they may better their conditions. The following is a copy of the article referred to:  
William Knowles, who cultivates some twelve acres of land just below Middlechurch ferry on east side of the Red River has probably as fine a display of horticultural products as any in Manitoba. The whole of his holding is in a high state of cultivation and is literally crowded with splendid vegetable specimens, which have fortunately escaped damage by hail, although heavy storms have more than once occurred within a few miles. The potatoes are a wonderful crop, and he expects to raise 1,500 bushels from his patch of 4½ acres. A half dozen of tubers selected yesterday average more than a pound each. Adjoining the potatoes may be seen a marvelous collection of tomatoes. There are 600 plants, all growing under an enormous weight of fruit. One single stock picked yesterday contained eighteen tomatoes and weighed four pounds. This extraordinary example of marvelous growth, together with some of the potatoes were sent to the Free Press office.

The proprietor was the first in town with several specimens, including green corn. The season has been favorable for onions, and one square patch of nearly an acre is looking remarkably healthy. In addition there are good crops of cabbages, cauliflower, turnips, parsnips, carrots, pumpkins, marrow, cucumbers, celery, peas, lettuce, rhubarb, etc. The floral department has not been neglected and a charming display of all the well known blooms were shown, including a specially choice lot of asters.

Mr. Knowles, who gained most of his gardening experience in England, is fond in his praise of Manitoba soil for vegetable raising, and is gratified with the result of his first attempt at extensive horticulture.

HAD A FELLOW FEELING.

Aunt Susan's Heart Went Out to "Poor Missus Astor."

Uncle Eli felt he knew the metropolis pretty well. Had he not been there three times in four years—and twice he had ridden on the elevated. So when he brought Aunt Susan with him (on the fourth trip) he naturally assumed the role of guide.

She marveled at everything until they sat down for luncheon. They had gone into the Astor house for that meal, but all its other marvels seemed lost on the visiting country hostess, as she looked open-eyed at the crowds that filled not only the corridors but the restaurants. Scarcely had they found seats, when this amazement took definite shape.

"Eli," said she in a stagey whisper, "I can't set here an' eat peaceably. I jes' must go downstairs an' help pore Missus Astor with the cookin' an' dishes."—Bohemian.

Pure Food.

The pure food law does not prohibit the sale of Cream of Tartar Baking Powders because Cream of Tartar is as pure as Alum—but it is a well known fact that a baking powder in which Alum is used instead of Cream of Tartar is less injurious. Dr. Herman Reinhold, the expert German chemist, in a recent official report concerning Baking Powders, declares that a pure Alum baking powder is better and less injurious than the so-called Cream of Tartar powders. He says that if the quantity of alum contained in a sufficient quantity of baking powder for a batch of bread or cakes for an ordinary family, be concentrated to one mouthful of food, and taken into the stomach of any one person, no matter how delicate, it could do no harm.

Effective Rat Poison.

A new plague protective or rat poison has been discovered in India. It consists of a pasty substance inoculated with a bacillus. According to report a rat which takes enough to cover a pin's head will not only die, but will infect every other rat with which it comes in contact. Five villages have been selected by the government in which to make tests of the new poison.

Many Good Ones—One Best.

"So many Oils and Liniments are advertised it is hard to decide which to buy. I tried a number before using Hunt's Lightning Oil. After using it once, however, I realized I had found the best there was, and it was useless to look further. If it fails its 'all off.' No other Liniment will hit the spot if Hunt's Lightning Oil fails."

C. G. YOUNG, Okemoo, O. T.

A Point of View.

The new steamer City of \_\_\_\_\_ was laid up for repairs and one of the rickety old-timers of the line was sailing in her place. A passenger who was somewhat irritated by the fact remarked to another, an Irishman, by the way: "The City of \_\_\_\_\_ always gets in at two in the morning and this old tub never gets in before six." The Irishman thought for a moment and replied: "It's all right. The distance is just the same and we get a longer sail for the money."

TIED BACKS.

The kidneys have a great work to do in keeping the blood pure. When they get out of order it causes backache, headache, dizziness, languor and distressing urinary troubles. Keep the kidneys well and all these sufferings will be saved you. Mrs. S. A. Moore, proprietor of a restaurant at Waterville, Mo., says:

"Before using Doan's Kidney Pills I suffered everything from kidney troubles for a year and a half. I had pain in the back and head, and almost continuous in the loins and felt weary all the time. A few doses of Doan's Kidney Pills brought great relief, and I kept on taking them until in a short time I was cured. I think Doan's Kidney Pills are wonderful."

For sale at all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

As to the Scorchers.

"Do many 'endurance race' autos pass here?" asked the city boarder, peering down the road. "Yeas, stranger," replied the old farmer. "They are all endurance racers to us." "Do you?" "Sure. It is an endurance test of patience to keep from blazing away at them every time they run over a cow or scare a horse."

Highest Attainment.

He who plants a tree does well; he who fells and saws it into planks does well; he who makes a bench of the planks does well; he who, sitting on the bench, teaches a child, does better than the rest.—Farrar.

NOTHING HID FROM KAISER.

How German Emperor Keeps in Touch with World's Affairs.

The German emperor's interest in everything that goes on in the world is well known, but few are aware of the trouble he takes to keep in touch with current affairs. According to a Munich newspaper, the kaiser reads at least three papers every day, changing the list several times a week in order to become fully acquainted with the ideas of all political parties in the state. But this by no means exhausts his appetite for information. Every day the ministry of foreign affairs, as well as that of the interior, has to provide newspaper cuttings, properly named and dated, and pasted on slips ready for the emperor's perusal. These he carefully reads, making marginal notes as he goes along, and they are then scrupulously classified and put aside ready for immediate reference. Often, too, the emperor asks for cuttings relating to the particular technical subjects in which for the time he is especially interested.

They Always Make Friends.

"Since using one box of Cheatham's Laxative Tablets we have been friends. They cured me promptly and thoroughly of a bad case of chills. Any one needing a remedy for malarial trouble will certainly find them satisfactory. They are also convenient to carry and pleasant to take."

JOHN EVERHARDT, Harwood, Tex.

Dangerous imitations of well-known medicines are often sold to druggists, by consciousnessless trade pirates. One of the most commonly imitated (because most popular) remedies, is **Thedford's Black-Draught**. Some imitators copy the appearance of the medicine; others the packet; but none copy the true merit of the only real—  
**THEDFORD'S BLACK-DRAUGHT**  
for constipation, indigestion, sick headache, biliousness, backache, uric acid troubles, rheumatism and similar disorders. Mrs. J. L. Broadhead, of Clanton, Ala., writes: "I had stomach trouble, but nothing helped me until I used Thedford's Black-Draught."

Her Visit Spoiled.  
The Amiable Woman—Did you enjoy your visit to Stratford-on-Avon?  
The Perfect Lady—It was perfectly horrid, that's just what it was! Why, Shakespeare's tomb was guarded so meanly that I didn't get an opportunity to chip off a single souvenir, or even to write my name on it.—Puck.

Test Its Value.  
Simmons' Liver Purifier is the most valuable remedy I ever tried for constipation and disordered Liver. It does its work thoroughly, but does not gripe like most remedies of its character. I certainly recommend it whenever the opportunity occurs.  
W. M. TOMLINSON, Oswego, Kan.

Love never dies of starvation, but often of indigestion.

Caused Him to Warble.  
"How funny! Grandpa has been singing like a bird all the morning." "Yes, that is on account of the mistake the dear old gentleman made at breakfast." "What mistake?" "Why, he made a porridge out of the package of birdseed and thought it was a package of oatmeal."

GOOD HOUSEKEEPERS.  
Use the best. That's why they buy Red Cross Ball Blue. At leading grocers, 5 cents.

Circumstances are not in our power; virtues are.—Dean Farrar.

You always get full value in Lewis' Single Binder straight 5c cigar. Your dealer or Lewis' Factory, Peoria, Ill.

To do the common duty of each day uncommonly well—that is success.

**Women Avoid Operations**  
When a woman suffering from female trouble is told that an operation is necessary, it, of course, frightens her.  
The very thought of the hospital, the operating table and the knife strikes terror to her heart.  
It is quite true that these troubles may reach a stage where an operation is the only resource, but a great many women have been cured by Lydia E. Pinkham's Vegetable Compound after an operation has been decided upon as the only cure. The strongest and most grateful statements possible to make come from women who by taking **Lydia E. Pinkham's Vegetable Compound** made from native roots and herbs, have escaped serious operations, as evidenced by Miss Rose Moore's case, of 307 W. 26th St., N. Y. She writes:  
"Dear Mrs. Pinkham:—Lydia E. Pinkham's Vegetable Compound has cured me of the very worst form of female trouble and I wish to express to you my deepest gratitude. I suffered intensely for two years so that I was unable to attend to my duties and was a burden to my family. I doctored and doctored with only temporary relief and constantly objecting to an operation which I was advised to undergo. I decided to try Lydia E. Pinkham's Vegetable Compound; it cured me of the terrible trouble and I am now in better health than I have been for many years."  
This and other such cases should encourage every woman to try Lydia E. Pinkham's Vegetable Compound before she submits to an operation.  
**Mrs. Pinkham's Standing Invitation to Women**  
Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. From the symptoms given, the trouble may be located and the quickest and surest way of recovery advised.

**RHEUMATISM CAN NOT BE RUBBED AWAY**

It is perfectly natural to rub the spot that hurts, and when the muscles, nerves, joints and bones are throbbing and twitching with the pains of Rheumatism the sufferer is apt to turn to the liniment bottle, or some other external application, in an effort to get relief from the disease, by producing counter-irritation on the flesh. Such treatment will quiet the pain temporarily, but can have no direct curative effect on the real disease because it does not reach the blood, where the cause is located. Rheumatism is more than skin deep—it is rooted and grounded in the blood and can only be reached by constitutional treatment—IT CANNOT BE RUBBED AWAY. Rheumatism is due to an excess of uric acid in the blood, brought about by the accumulation in the system of refuse matter which the natural avenues of bodily waste, the Bowels and Kidneys, have failed to carry off. This refuse matter, coming in contact with the different acids of the body, forms uric acid which is absorbed into the blood and distributed to all parts of the body, and Rheumatism gets possession of the system. The aches and pains are only symptoms, and though they may be scattered or relieved for a time by surface treatment, they will reappear at the first exposure to cold or dampness, or after an attack of indigestion or other irregularity. Rheumatism can never be permanently cured while the circulation remains saturated with irritating, pain-producing uric acid poison. The disease will shift from muscle to muscle or joint to joint, settling on the nerves, causing inflammation and swelling and such terrible pains that the nervous system is often shattered, the health undermined, and perhaps the patient becomes deformed and crippled for life. S. S. S. thoroughly cleanses the blood and renovates the circulation by neutralizing the acids and expelling all foreign matter from the system. It warms and invigorates the blood so that instead of a weak, sour stream, constantly depositing acid and corrosive matter in the muscles, nerves, joints and bones, the body is fed and nourished by rich, health-sustaining blood which completely and permanently cures Rheumatism. S. S. S. is composed of both purifying and tonic properties—just what is needed in every case of Rheumatism. It contains no potash, alkali or other mineral ingredient, but is made entirely of purifying, healing extracts and juices of roots, herbs and barks. If you are suffering from Rheumatism do not waste valuable time trying to rub a blood disease away, but begin the use of S. S. S. and write us about your case and our physicians will give you any information or advice desired free of charge and will send our special treatise on Rheumatism.

## PRESIDENT ENDS SUSPENSE

**Federal Appointments Announced—Campbell and Cotteral the Judges, Two Embryes for Attorneys, Abernathy and Porter for Marshals.**

Washington Nov. 7.—The president has put an end to the long fight over federal positions in the new state of Oklahoma by appointing the following:

Judge of the Eastern District—Ralph E. Campbell  
Judge of the Western District—John H. Cotteral

For the Eastern District—William Embry United States Attorney Grove A. Porter United States Marshal  
Western District—John Embry United States Attorney John Abernathy United States Marshal

Although the president does not make the appointments which is understood that J. H. Harris will be clerk of the Eastern district court and Charles B. Hunter of the court of the Western district. It is also understood that C. B. Rogers of Tulsa will become Master of Chancery.

The friends of Representative Bird McGuire of the First district claim to have won a victory in the appointment of Cotteral. McGuire endorsed Chief Justice Burton and stood out for him.

until the president said he would not appoint a man who had reached the age of Burton. McGuire then agreed to accept Mr. Cotteral but it was some time before Gov. Frantz would agree to endorse Cotteral. The governor endorsed Attorney General Cramwell but the president would not appoint Gov. Frantz's nominee in the Eastern District.

It is understood that the delay in announcing the selections has been due to the unwillingness of Gov. Frantz to surrender all idea of securing the appointment of Mr. Cramwell. Secretary Cramwell is understood to have endorsed Mr. Cotteral very warmly and it is probable that the hearty endorsement of the secretary of the interior caused the president to stick to his determination to appoint Cotteral.

I think the appointments all the way through are excellent. Said Judge J. H. Harris of Perry, a candidate for one of the judgeships on his way to the railway station this afternoon.

I know both the new judges well. The president has not made a mistake. Judge Cotteral, who is appointed to be bench in the district is a man of no doubt a very high caliber.

Judge Harris declared himself and announced his candidacy for the judgeship in the district court.

My platform shall be the improvement of the Missouri and Mississippi river valleys and the development of a port on the Gulf Coast through which may be shipped the products of Oklahoma and the Middle Western States to foreign markets instead of having to send them to Atlantic ports as is the case to too great an extent at present.

Judge Harris says he believes he can capture the nomination which he regarded as being equivalent to an election. Nearly all the Oklahomans who have been here for ten days in connection with the battle for the job have disappeared leaving as quickly as possible after the president announced his selections. Gov. Frantz will go home in a day or two. As stated in this correspondence, Gov. Frantz will embark in the real estate business at Tulsa when his office is abolished on Nov. 16.

BLAZE AT MADILL.

Newspaper Plant, Opera House and Laundry Burn.

Madill, Nov. 7.—Fire about midnight tonight destroyed the plant of the Madill News and the Madill opera house and the Madill steam laundry establishment. In this confusion tonight accurate figures are unobtainable but the loss will probably be about \$12,000 with some in insurance.

Transfer of Court Cases.

Oklahoma City, Nov. 7.—Judge McGuire J. S. Harris and Charles Finch inspectors for the department of justice at Washington have arrived here to superintend transfer of the Territorial court cases to the state courts and particularly to see that the federal cases are properly changed. A fourth inspector will arrive tomorrow to aid in the work. The court dockets in the twenty-six counties of Oklahoma Territory must be gone over by them by Nov. 16.

## THREATENS PAPER TRUST

**President Promises to Urge Abolition of Tariff on Press Paper and to Probe the Alleged Trust--Price of Paper is Intolerable.**

Washington, Nov. 7.—President Roosevelt today indicated to members of the committee on paper of the American Newspaper Publishers' association that he will recommend to congress the abolition of the tariff on press paper, also that he will make a recommendation to the department of justice that it take immediate steps to ascertain whether the anti-trust laws are being disobeyed by the manufacturers of paper.

The appreciation of the association was expressed to the president at the action taken by the federal government last year in ordering the dissolution of the General Paper company. His attention was then called to what was termed a conspiracy by which it was alleged the manufacturers of news print papers have arranged to raise the price of paper to ten cents per ton in advance of \$12 per ton upon the supply of that much for the current year and for an additional advance next year averaging \$10 per ton. This it was explained means a burden imposed on the printing industry of the country of \$10,000,000 for the present \$1,000,000 for the coming

year. The president was told just been consummated by the creation of a combination to exhaust the surplus stock of paper to cause a paper famine and to raise prices.

The president was further informed that after disbandment by order of the court of the General Paper company various meetings of eastern and western manufacturers have been held to stimulate prices and to limit the contract period. A conference of eastern manufacturers was held in New York during the first week of September last when the advance in price was decided upon. Since that time manufacturers who had previously solicited the business of various news publishers had withdrawn all quotations. Publishers who apply for quotations realize that in some intangible way their supply has been predetermined and the price they are to pay also arranged for them. In each case the statement stated the publisher received bids but the paper was held at a prohibitory price. He also finds that he has no remedy against the supply of inferior paper. Publishers

The Store Where QUALITY Stands for Something.

SHERIFF SMITH WARNS THE LIQUOR DEALERS

To all whom it may concern

If on Nov. 10th the president declares this a state it will be a violation of the law to sell or give away any intoxicating liquors of any kind within the state of Oklahoma and therefore it will become my duty as Sheriff of Pontotoc county to enforce the law.

I have a usual fight with proper officers and they and my lot of the opinion that all malt liquors including the so-called territorial drinks—Long Horn Short Horn Uno Two etc.—are in violation of the law. This has also been held by the United States court in one person's case. Violating this law will be promptly arrested and the court will give a good bond will be lodged in jail. This law was placed there by the people in the state and it is a question to catch it to the law and to the law. I must do so to my duty. I propose to to my duty to the best of my ability.

I simply take this time of warning the others have been advised of that inquiry. New selling agencies representing an aggregation of previously independent mills have merged the output of those mills. The source of supply of numerous newspapers has been arbitrarily diverted from our mill to another without the consent of the publishers. Jobbers who apply to a large agent or to mills for quotation are forced to disclose the name of the customer and the purpose for which the paper is to be used. When this disclosure is made jobbers find that satisfactory quotations can be obtained from but one mill in the country. Mill men and paper salesmen have admitted that an agreed scale had been adopted.

# ADA EVENING NEWS.

ADA, IND. TER.

**A Significant Nickname.**  
The unfeeling frankness of youth was not so at unpleasant truth-telling. Even the gentle sex may suffer at the hands of its brothers. It is dangerous for a girl—at least for a girl at a coeducational school—to echo Hura's wish.

"O wad some Pow'r the giftie gie us To see ourselves as others see us!" lost her desire be realized with unexpected fulness. For—could mind of women ever think it?—the boys of these schools have nicknamed their sister students "fussers!" Was the name born of the numerous sofa pillows and footstools with which the maidens fill their rooms, the chatting, the tea-tables and hutch-cases and ring-boxes and alpenstocks and rocking chairs which make dangerous a hasty progress through the feminine study? At all events, the combination of these feminine acquisitions has embodied itself in the crisp, masculine epithet, "fusser." Perhaps the phrase is a comment on a state of mind as well as on a method of house-keeping. In the opinion of the college boy, Mild Marian "fusses" about lessons, about "marks," about committees, about what faculty or classmates think of her. She lacks the cheerful fatalism, and he tags her with the epithet which, he thinks, fits her conscience and her maid, as well as her room and her wardrobe. The modern girl, says Youth's Companion, must find a way to free herself of impediments, both physical and intellectual, if she would induce her critics to drop the objectionable nickname and grant her rank as an artist in the pleasant business of living.

All the iron furnaces in the world produced less iron in 1894 than will be turned out of the furnaces in the United States during the current year. If the rate of production for the first six months is maintained. This fact indicates a marvelous expansion in the iron business. No more convincing proof of the solid foundation of the national prosperity could be afforded than this, for it is well known that a nation's consumption of iron is an index to its business condition. This is not because there is any mysterious virtue in iron, but because iron is used extensively only in prosperous times. Nearly 13,500,000 tons of pigiron were turned out from January till June. This is more than the total yearly output for any 12 months prior to 1889, and more than either Germany or England have ever made in any full year. There are no indications of a falling off in the American production. On June 30 29 new furnaces were under construction, and 13 more were projected. The United States produces more iron and more cotton than any other country. It exports the greater part of the cotton, but uses nearly all of the iron in its own industries.

The scarabaeus, the sacred beetle of Egypt, was an object of worship in olden days, and was most carefully embalmed at death. The ancient Egyptians believed the heart to be the center of intellect as well as the source of life and removed this organ when the embalming process took place, a model of the scarabaeus being put in its place. There are many varieties of this sacred beetle, as the monuments in Egypt show. The scarab was the favorite insignia of both men and women, and was worn as a charm to protect from harm and insure desirable qualities to make them attractive. Many hard stones were used for these models, and turquoise, malachite, lapis-lazuli, jasper, amethyst, agate and onyx being much in favor. Some of the ancient ones are cleverly cut and were used as coin of the realm. The finest are found with the mummies in old tombs.

What a pity it would have been had the Bastille been taken in the winter, rather than in the summer. No doubt those who participated in that famous victory found it full hot enough at the time, but those who now recall their doughty achievements with feast and dance would have found far less incentive from a French winter than from a French summer. In this way does a kindly fate look heedfully to the future. The perspiring and powder-grimed fighters of the Place de la Bastille a hundred years ago little thought how much their descendants would appreciate the July weather, which is an established part of the great national fete.

In mottoes and similar inscriptions, appropriateness is as important as sentiment. During Boston's recent "Old Home Week" a conspicuous part of the decorations in one of the suburbs was "Welcome," displayed in large letters, over the door of the police station.

Knabenshue's shiprump bumped into a schoolhouse in Toronto with unpleasant results for the operator. The shiprump may have been aware that its early education had been neglected.

# PROLIFIC GARDEN

ENGLISHMAN'S FIRST AND SUCCESSFUL ATTEMPTS IN MANITOBA—SOIL PRODUCES STRIKING RESULTS.

The Winnipeg (Canada) Free Press of a few days since contains account of the success that followed the efforts of William Knowles, an Englishman who located near Winnipeg, Manitoba. This is but one of many letters giving experiences of settlers, and should be encouraging to those who are looking about for a new home in which they may better their conditions. The following is a copy of the article referred to:

William Knowles, who cultivates some twelve acres of land just below Middlechurch ferry on east side of the Red River has probably as fine a display of horticultural products as any in Manitoba. The whole of his holding is in a high state of cultivation and literally crowded with splendid vegetable specimens, which have fortunately escaped damage by hail, although heavy storms have more than once occurred within a few miles. The potatoes are a wonderful crop, and he expects to raise 1,500 bushels from his patch of 1½ acres. A half dozen of tubers selected yesterday average more than a pound each. Adjoining the potatoes may be seen a marvelous collection of tomatoes. There are 600 plants, all growing under an enormous weight of fruit. One single stock picked yesterday contained eighteen tomatoes and weighed four pounds. This extraordinary example of marvelous growth, together with some of the potatoes were sent to the Free Press office.

The proprietor was the first in town with several specimens, including green corn. The season has been favorable for onions, and one square patch of nearly an acre is looking remarkably healthy. In addition there are good crops of cabbages, cauliflower, turnips, parsnips, carrots, pumpkins, marrow, cucumbers, celery, peas, lettuce, rhubarb, etc. The floral department has not been neglected and a charming display of all the well known blooms were shown, including a specially choice lot of asters.

Mr. Knowles, who gained most of his gardening experience in England, is loud in his praise of Manitoba soil for vegetable raising, and is gratified with the result of his first attempt at extensive horticulture.

## HAD A FELLOW FEELING.

Aunt Susan's Heart Went Out to "Pore Missus Astor."

Uncle Eli felt he knew the metropolis pretty well. Had he not been there three times in four years—and twice he had ridden on the elevated. So when he brought Aunt Susan with him (on the fourth trip) he naturally assumed the role of guide.

She marveled at everything until they sat down for luncheon. They had gone into the Astor house for that meal, but all its other marvels seemed lost on the visiting country hostess, as she looked open-eyed at the crowds that filled not only the corridors but the restaurants. Scarcely had they found seats, when this amazement took definite shape.

"Eli," said she in a stagey whisper, "I can't eat here 'at peaceably. I jes' must go downstairs an' help pore Missus Astor with the cookin' an' dishes."—Bohemian.

## Pure Food.

The pure food law does not prohibit the sale of Cream of Tartar Baking Powders because Cream of Tartar is as pure as Alum—but it is a well known fact that a baking powder in which Alum is used instead of Cream of Tartar is less injurious. Dr. Herman Reinhold, the expert German chemist, in a recent official report concerning Baking Powders, declares that a pure Alum baking powder is better and less injurious than the so-called Cream of Tartar powders. He says that if the quantity of alum contained in a sufficient quantity of baking powder for a batch of bread or cakes for an ordinary family, be concentrated to one mouthful of food, and taken into the stomach of any one person, no matter how delicate, it could do no harm.

## Effective Rat Poison.

A new plague protective or rat poison has been discovered in India. It consists of a pasty substance inoculated with a bacillus. According to report a rat which takes enough to cover a pin's head will not only die, but will infect every other rat with which it comes in contact. Five villages have been selected by the government in which to make tests of the new poison.

## Many Good Ones—One Best.

"So many Oils and Liniments are advertised it is hard to decide which to buy. I tried a number before using Hunt's Lightning Oil. After using it once, however, I realized I had found the best there was, and it was useless to look further. If it falls its 'all off.' No other liniment will hit the spot if Hunt's Lightning Oil falls."

C. G. YOUNG, Okoneo, O. T.

## A Point of View.

The new steamer City of was laid up for repairs and one of the rickety old-timers of the line was sailing in her place. A passenger who was somewhat irritated by the fact remarked to another, an Irishman, by the way: "The City of — always gets in at two in the morning and this old tub never gets in before six."

The Irishman thought for a moment and replied: "It's all right. The distance is just the same and we get a longer sail for the money."

# TIRED BACKS.

The kidneys have a great work to do in keeping the blood pure. When they get out of order it causes backache, headache, dizziness, languor and distressing urinary troubles. Keep the kidneys well and all these sufferings will be saved you. Mrs. S. A. Moore, proprietor of a restaurant at Waterville, Mo., says:

"Before using Doan's Kidney Pills I suffered everything from kidney troubles for a year and a half. I had pain in the back and head, and almost continuous in the loins and felt weary all the time. A few doses of Doan's Kidney Pills brought great relief, and I kept on taking them until in a short time I was cured. I think Doan's Kidney Pills are wonderful."

For sale at all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

## As to the Scorchers.

"Do many 'endurance race' autos pass here?" asked the city boarder, peering down the road. "Yeas, stranger," replied the old farmer. "They are all endurance races to us." "To you?" "Sure. It is an endurance test of patience to keep from blazing away at them every time they run over a cow or scare a horse."

## Highest Attainment.

He who plants a tree does well; he who tells and sows it into planks does well; he who makes a bench of the planks does well; he who, sitting on the bench, teaches a child, does better than the rest.—Farrar.

# NOTHING HID FROM KAISER.

How German Emperor Keeps in Touch with World's Affairs.

The German emperor's interest in everything that goes on in the world is well known, but few are aware of the trouble he takes to keep in touch with current affairs. According to a Munich newspaper, the kaiser reads at least three papers every day, changing the list several times a week in order to become fully acquainted with the ideas of all political parties in the state. But this by no means exhausts his appetite for information. Every day the ministry of foreign affairs, as well as that of the interior, has to provide newspaper cuttings, properly named and dated, and pasted on slips ready for the emperor's perusal. These he carefully reads, making marginal notes as he goes along, and they are then scrupulously classified and put aside ready for immediate reference. Often, too, the emperor asks for cuttings relating to the particular technical subjects in which the time he is specially interested.

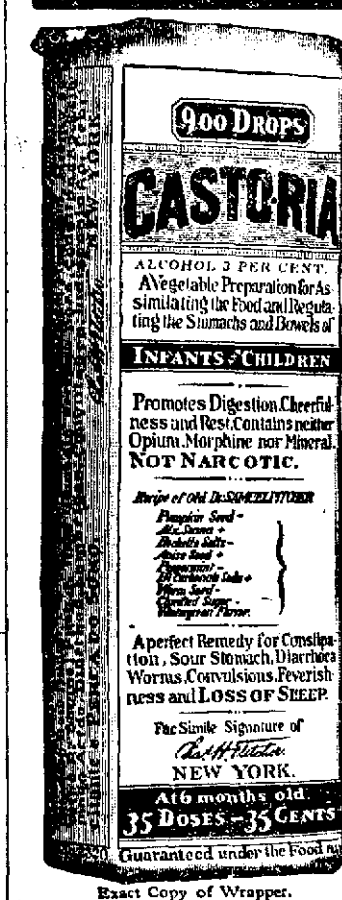

## They Always Make Friends.

"Since using one box of Cheatham's Laxative Tablets we have been friends. They cured me promptly and thoroughly of a bad case of chills. Any one needing a remedy for malarial trouble will certainly find them satisfactory. They are also convenient to carry and pleasant to take."

JOHN EVERHARDT, Harwood, Tex.

## Not Saying Much for Ma.

Dangerous imitations of well-known medicines are often sold to druggists, by consciousnessless trade pirates. One of the most commonly imitated (because most popular) remedies, is Thedford's Black-Draught. Some imitators copy the appearance of the medicine; others the packet; but none copy the true merit of the only real—  
**THEDFORD'S BLACK-DRAUGHT**  
for constipation, indigestion, sick headache, biliousness, backache, uric acid troubles, rheumatism and similar disorders. Mrs. J. L. Broadhead, of Clanton, Ala., writes: "I had stomach trouble, but nothing helped me until I used Thedford's Black-Draught."

**Her Visit Spoiled.**  
The Amiable Woman—Did you enjoy your visit to Stratford-on-Avon?  
The Perfect Lady—It was perfectly horrid, that's just what it was! Why, Shakespeare's tomb was guarded so meanly that I didn't get an opportunity to chip off a single souvenir, or even to write my name on it.—Puck.  
**Test Its Value.**  
Simmons' Liver Purifier is the most valuable remedy I ever tried for constipation and disordered Liver. It does its work thoroughly, but does not grip like most remedies of its character. I certainly recommend it whenever the opportunity occurs.  
W. M. TOMLINSON, Oswego, Kan.  
Love never dies of starvation, but often of indigestion.

**Caused Him to Wobble.**  
"How funny! Grandpa has been singing like a bird all the morning." "Yes, that is on account of the mistake the dear old gentleman made at breakfast." "What mistake?" "Why, he made a porridge out of the package of birdseed and thought it was a package of oatmeal."  
**GOOD HOUSEKEEPERS.**  
Use the best. That's why they buy Red Cross Ball Blue. At leading grocers, 5 cents.  
Circumstances are not in our power; virtues are.—Dean Farrar.  
You always get full value in Lewis' Single Binder straight tie cigar. Your dealer or Lewis' Factory, Peoria, Ill.  
To do the common duty of each day uncommonly well—that is success.

**Women Avoid Operations**  
When a woman suffering from female trouble is told that an operation is necessary, it, of course, frightens her.  
The very thought of the hospital, the operating table and the knife strikes terror to her heart.  
It is quite true that these troubles may reach a stage where an operation is the only resource, but a great many women have been cured by Lydia E. Pinkham's Vegetable Compound after an operation has been decided upon as the only cure. The strongest and most grateful statements possible to make come from women who by taking  
**Lydia E. Pinkham's Vegetable Compound**  
made from native roots and herbs, have escaped serious operations, as evidenced by Miss Rose Moore's case, of 207 W. 26th St., N. Y. She writes:  
"Dear Mrs. Pinkham:—Lydia E. Pinkham's Vegetable Compound has cured me of the very worst form of female trouble and I wish to express to you my deepest gratitude. I suffered intensely for two years so that I was unable to attend to my duties and was a burden to my family. I doctored and doctored with only temporary relief and constantly objecting to an operation which I was advised to undergo, I decided to try Lydia E. Pinkham's Vegetable Compound; it cured me of the terrible trouble and I am now in better health than I have been for many years."  
This and other such cases should encourage every woman to try Lydia E. Pinkham's Vegetable Compound before she submits to an operation.  
**Mrs. Pinkham's Standing Invitation to Women**  
Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. From the symptoms given, the trouble may be located and the quickest and surest way of recovery advised.

**RHEUMATISM CAN NOT BE RUBBED AWAY**  
It is perfectly natural to rub the spot that hurts, and when the muscles, nerves, joints and bones are throbbing and twitching with the pains of Rheumatism the sufferer is apt to turn to the liniment bottle, or some other external application, in an effort to get relief from the disease, by producing counter-irritation on the flesh. Such treatment will quiet the pain temporarily, but can have no direct curative effect on the real disease because it does not reach the blood, where the cause is located. Rheumatism is more than skin deep—it is rooted and grounded in the blood and can only be reached by constitutional treatment—IT CANNOT BE RUBBED AWAY. Rheumatism is due to an excess of uric acid in the blood, brought about by the accumulation in the system of refuse matter which the natural avenues of bodily waste, the Bowels and Kidneys, have failed to carry off. This refuse matter, coming in contact with the different acids of the body, forms uric acid which is absorbed into the blood and distributed to all parts of the body, and Rheumatism gets possession of the system. The aches and pains are only symptoms, and though they may be scattered or relieved for a time by surface treatment, they will reappear at the first exposure to cold or dampness, or after an attack of indigestion or other irregularity. Rheumatism can never be permanently cured while the circulation remains saturated with irritating, pain-producing uric acid poison. The disease will shift from muscle to muscle or joint to joint, settling on the nerves, causing inflammation and swelling and such terrible pains that the nervous system is often shattered, the health undermined, and perhaps the patient becomes deformed and crippled for life. S. S. S. thoroughly cleanses the blood and renovates the circulation by neutralizing the acids and expelling all foreign matter from the system. It warms and invigorates the blood so that instead of a weak, sour stream, constantly depositing acid and corrosive matter in the muscles, nerves, joints and bones, the body is fed and nourished by rich, health-sustaining blood which completely and permanently cures Rheumatism. S. S. S. is composed of both purifying and tonic properties—just what is needed in every case of Rheumatism. It contains no potash, alkali or other mineral ingredient, but is made entirely of purifying, healing extracts and juices of roots, herbs and barks. If you are suffering from Rheumatism do not waste valuable time trying to rub a blood disease away, but begin the use of S. S. S. and write us about your case and our physicians will give you any information or advice desired free of charge and will send our special treatise on Rheumatism.  
**THE SWIFT SPECIFIC CO., ATLANTA, GA.**

**OPIUM** and Whiskey Habits treated in a bold, unflinching way. It cures particularly Opium, Morphine, Cocaine, and other habits. Write for free booklet. **Woolley, M. D., Atlanta, Ga., 102 N. Liberty St.**
